

## The Wormhole Implosion Motivated Christmas Tree Light-Sail Smorgasbord. Notes on Novel Light-Sail Propulsion Methods. Volume 54. (Paperback)

Filesize: 3.86 MB

### ***Reviews***

*Here is the finest publication i have read through until now. I am quite late in start reading this one, but better then never. I am just easily can get a pleasure of studying a created publication.*

## THE WORMHOLE IMPLOSION MOTIVATED CHRISTMAS TREE LIGHT-SAIL SMORGASBORD. NOTES ON NOVEL LIGHT-SAIL PROPULSION METHODS. VOLUME 54. (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2016. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.In this series of volumes, we present yet additional propulsion modes. One new mode involves the concept of wormhole expansion or production in connected and proximate lengths of throats but which then explosively implode thereby releasing large quantities of energy into a suitable spacecraft chamber, say for example, a wormhole reactor. The energy can then be used for direct propulsion as in a sail mechanism, an exhaust chamber, or alternatively be converted to electrical power to operate electrical propulsion systems. We will use an abbreviated form of the following operator to denote the implosive wormhole power sources dimensionless propulsive power enhancement factor:  $\{(\text{Context Specific}): \}$ . The operator is context specific in value and may thus vary depending on its instantiation and location in the two lengthy formulas provided in this series of books. Another propulsion mode involves speculation on prospects that electromagnetic energy may have hidden classical variables such as hidden energy and/or momentum. Such hidden variables if existent might be generally uncloaked or uncloaked to provide additional propulsion energy per unit of incident electromagnetic radiation. We use an abbreviated form of the following operator to denote electromagnetic hidden energy as uncloaked and converted to spacecraft kinetic energy.  $\{(\text{Context Specific}): \}$ . The following compound operator in abbreviated form is inserted within the two lengthy formulas contained within the book.  $\{(\text{Context Specific}): \} + \{(\text{Context Specific}): \}$ . The final abbreviated form of the new compound operator is:  $\{(\text{Cont Spec}): \} + \{(\text{Cont Spec}): \}$ . The value of the operator can be any real number. In cases where the operator is negative or less than one but greater than zero, a spacecraft kinetic energy bleed off is...
