This book explores each of the ten planetary archetypes in astrology and provides an overview of how they manifest in each of the signs and houses of the birth chart. We are all microcosms of the universe. We have planetary psyches. You are a unique poem written with the letters of the astrological alphabet. You are sunshine and moonlight, mercurian wit, venusian sensuality, and marsian drive, you expand through jupiter and define through saturn, you rebel with uranus, dream with neptune, and transform with pluto. This is a collection of essays by an astrology student exploring your inner cosmos and its reflection in your external reality.
