I am not very anxious about the fate of the work, and therefore, I shall not offer any formal apology for its im perfections. These will be readily perceived by the reader of any experience. IMPERFECT, however, as is this Second Part, I hope the student of medicine and the young practitioner, for whom principally it is intended, will find it not less interesting than the preceding part. It contains additions to many of the articles which are mentioned in the former portion of the work, besides facts and observations concerning other articles, which are either entirely unnoticed, or merely named, there. Some of the newly named articles have never before been noticed in any work relative to the Materia Medica: such are Myrica cerifera, Prinos verticillatus, Hydrastis Canadensis, Frasera Walteri, and c. How far these are worthy of the...

Reviews

This publication will never be effortless to get started on reading through but very entertaining to read through. It normally is not going to expense too much. I discovered this publication from my dad and i encouraged this book to find out.
